### What is Humanity

Humanity is showing love, kindness and respect, also feeling the pain of others. We are all brothers and sisters and everyone must be respectful and have love towards each other. God created all humans equally. We all come from Adam and Eve and we are all the same on the inside. We have the same bones, same blood colour and the same breathing system. We should not let differences of religion, skin colour or nationality divide us.

We are all humans and we must stand together against injustice, hate, and evil work. Over the last few years, there is a lot of hate in our world, as the new generation we must support love only.

Dear friends a special request to you all that we should not make friendship with bad people who hate others. We must live together with love because love can bring peace in your life and in our world.

I will conclude this topic by saying to myself and all brothers and sisters that, we all do better when we work together. Thank you and have a nice day.
